12/10/2011 9:06:34	Miriam Lea Oertel	German	Visa application in general might be much more easier if there was an option to apply for via internet. Also that the German visa offices are not connected. for the different states are different counsils responsible, which might be really far from the distance to someone's home.	dazzlingsky@googlemail.com

12/10/2011 12:01:09	Jesús Muñoz Sánchez	spanish	In Spain, as well as in a few other countries, the Indian consular representatives stamp the top of our visas with a 90 DAY MAXIMUM STAY. This is at variance to what is happening in many other countries. It is felt as a clear discrimination for us who have to make do with the more restrictive measures while some can stay up to 180 days. Furthermore, a two months gap for re-entry adds more difficulties to the whole experience of coming to India. The suggestion promoting a new type of visa for retired people who can prove sufficient income to look after their needs and who have a health insurance seems a wonderful idea for those of us who like to winter in India. Visas of one year duration seem excellent, making possible to also enjoy Spring in north India, after Goa. I am a 58 years old retired health professional (nephrologist) and I can show evidence of my pension income, enough to stay in India, a country I have grown to love and where I like to spend more time without the restrictions that the actual rules impose. Please, let's keep together on this project and only ask the Indian authorities for what is reasonable in our circumstances! Please, let me know if I may be of any assistance to further explain my views and suggestions.	jesusmusan@hotmail.com

12/11/2011 6:35:52	Ursula Maria Halft	German	I come for Goa in wintertimes since 10 years and I spend a lot of money in my whole- year- rented- flat. I like this area very much. Now its a little bit like home. I always travelled from here to other asian countries using your travel business for flights. Now I am grandmother and I want to see my grandchild on Christmas. But unfortunately it's not possible because of the 2-months-gap. With this I feel a little bit unfree....I'll be very happy if this will be changed.	ullahalft@yahoo.de

It has been a nightmare of applying a long term visa via the VFS, no one in that department able to offer any explanation. I think it is about time that the Indian government will provide the facility just like other Asian countries for retirees. Not only to generate extra revenue but also to strengthen the local economy.	voice4dog@yahoo.com

1/18/2012 3:51:26	Annekathrin Peters	deutsch	Wir kommen schon seit einigen Jahren immer wieder gerne nach Indien/Goa. Die neu eingeführte 2 Monats-Lücke macht es schwer, seine Reise bzw. den Aufenthalt in Indien frei zu gestalten und gibt ein eingeengtes Gefühl. Ich finde es fair und richtig, diese Regelung wieder aufzuheben, da viele Touristen, die das Land finanziell sowie kulturell bereichern, sich ansonsten anderweitig orientieren müssen.
